**Keys are optional. We will tell you prior to the show if this should be set up.

We bring our own monitor split (In-ear), which will be located on the drum riser and we will patch 1-16 into the stage box. We need 2 extra mic stands and xlr cables for ambience mics which go into our Ui24 Channels 19+20. **PLEASE!** don't engage Phantompower on any channels without telling us first, because the split is configured to let 48V through from FOH.
